Deploma / Desktop publishing

Asi-Tech computer Training   2017 Ogun, Sango Ota, Nigeria

SSCE / Leaving school certificate

Preach the word   Jan 2012 – Jul 2016 Ogun, Ota, Nigeria

PROJECTS
.

E-commerce Website

Nov 2023 – present

Developed a full-fledged e-commerce platform using MERN stack (MongoDB, Express.js, React.js, Node.js) allowing users to browse products, add items to cart, and complete purchases securely.

Tools: MongoDB, Express.js, React.js, Node.js, Redux, JWT Authentication

Bootstrap project

Facebook login Clone

2023

Facebook login page clone with bootstap5

Portfolio

personal website (React.js)

2022

A portfolio website project is a digital platform showcasing professional work, skills, and achievements. It serves as a visual resume, presenting projects, skills, and contact information to potential clients or employers.

Web application

Bucket list

2024

Developed a bucket list application

Tools: Django, sqlite

Web application

Quiz

2024

Developed a quiz application for setting and taking test.

Tools: Django, Sqlite

CERTIFICATES

- [JavaScript Algorithms and Data Structures](#)

  2022

- **Responsive Web Design**

  2022

- [React and Redux](#)

  2021

PUBLICATIONS

How to push your project to Github

Hashnode   07 Jun 2022

GitHub streamlines code sharing and storage, enabling effortless collaboration among developers. To push projects from local storage to GitHub, configuring Git and creating a GitHub account are essential prerequisites.

Introduction to Git and Github

Hashnode   05 Jun 2022

Version Control Systems (VCS) track software changes, enabling teams to manage modifications and collaborate effectively. They provide reliability and support concurrent development, akin to having backups, streamlining productivity in software projects.

Creating a cool profile card

Dev.to   13 Oct 2021

Creating a cool profile card involves designing and coding a visually appealing digital card that showcases personal information and highlights key attributes.
